

Company Overview

Our client is a Canadian Gold Producer, operating in Vietnam and Malaysia. The Company is the largest Foreign Producer in Southeast Asia, and has four separate projects; diversified over the two countries.

The Company is well-financed and is led by a very experienced senior management team.

In keeping with their expansion goals, the Company is seeking to hire a Senior Metallurgist.

The position will report in to the Chief Operating Officer.

The Company offers a competitive salary package and benefits; commensurate with qualifications and experience.

Responsibilities:

- Provide technical expertise, guidance and leadership in metallurgical testing and analyses.
- Conducts, plans, and assists with metallurgical study, development and testing.
- Serves as Technical Expert on complex metallurgical testing.
- Supervises, mentors, trains, and provides guidance for staff and other team members.
- Contributes to the improvement of Metallurgical Processes.
- Reports Metallurgical or Process issues and makes recommendations to senior management on how to resolve and correct these issues.

Qualifications:

- A degree in Metallurgy.
- 10 -15 years' experience in Metallurgy.
- Knowledge of the principles and methods used in complex Metallurgical and Processing analyses.

Core Competencies:

- Excellent communication and interpersonal skills.
- An excellent team player, who fosters positive relationships and can work harmoniously with a very diversified team.
- Excellent at teaching, training, and mentoring staff.
- Solid experience managing a team of people.
